Profile Summary

Architecting high-velocity revenue engines by bridging the gap between technical data systems and enterprise sales strategy. Proven track record of driving **82% operational optimization** across GTM teams at Zycus by streamlining Salesforce and Outreach workflows to eliminate pipeline friction. Expert in transforming complex account intelligence from Demandbase and Factors.ai into narrative-driven insights, directly supporting the closure of a **₹25L+ B2B contract with IBM** through technical market intelligence and pitch deck engineering.

Experience

Zycus | RevOps & GTM Analyst | Business Development

Jan - Mar 2026

- Created automated workflows in Salesforce & Outreach → 82% operational optimization across BD teams.
- Leveraged Demandbase & Factors.ai intent data to map funnel health → translated AI/S2P capabilities into enterprise business value.

Aditya Facilities Pvt Ltd | GTM Strategy Consultant (IBM Partnership)

Jun - Dec 2025

- Engineered high-stakes B2B decks (NAFED, NBCC, Coal/Mines) → synthesized IBM Maximo, Envizi & B2BI SaaS into enterprise solutions.
- Developed "DNA Genotype" frameworks & 15-point university analyses → identified 25% lead leakage & 18% dropout risks to drive GTM automation.

Infosys Springboard Internship 5.0 | AI/ML Project Intern

Feb - Mar 2025

- Built and deployed an AI-powered OCR platform for BFSI digitization → 40% faster processing.
- Designed credit risk evaluation models with a 15-member team; presented solutions for ethical AI in finance.

Global Ventures | AI/ML Research & IT Analyst

July - Nov 2024

- Developed AI security tools using OpenCV → 30% boost in system performance.
- Created core B2B pitch decks that closed a deal with IBM, directly contributing to a ₹25L+ contract and tracked high-value tenders (MyCII, GeM, DoT, TCIL).

Centre for Development of Telematics (Govt of India) | AI/ML Research Intern

May - July 2024

- Deployed facial recognition system using Siamese Networks → 95% accuracy, 40% speed gain.
- Optimized pattern recognition algorithms → 15% accuracy improvement, reduced model complexity.

Technical Portfolio

AI-Powered BFSI Digitization (Infosys) [project link](#)

- Led a 15-member team to design and present ethical credit risk evaluation models to stakeholders.
- Achieved 40% faster document processing with optimized image preprocessing and alternative credit data

Enterprise Security & Demographic Analytics (CDOT) [project link](#)

- Led model dev using Siamese Networks; verified 95%+ on Kaggle datasets.
- Integrated demographic tagging; reduced latency by 30% for real-time video input.

Celebrity Recognition System [project link](#)

- Built VGGNet-based model with transfer learning; boosted inference speed by 40%.
- Deployed real-time API with live image input and custom-trained dataset.

Skills

- BD & GTM Strategy:** Go-to-Market (GTM) Strategy, Intent Classification, Multi-touch Attribution, Pipeline Management, and Account-Based Marketing (ABM), Trend Forecasting, Brand Onboarding, International Label Sourcing, E-commerce Analytics.
- Sales & RevOps Stack:** Salesforce CRM, Outreach, Demandbase, Factors.ai, and Marketing Automation.
- Core Competencies:** Enterprise SaaS Consulting, Strategic Consulting for S2P/I2O Lifecycles, Technology Translation, and Numerical Storytelling.
- Engineering & Data DNA:** Python, SQL, AI/ML (OpenCV, Siamese Networks), Google Cloud Platform (GCP), and AWS.

Education

Amity University

B.Tech Computer Science & Engineering

Sep 2022 – May 2026

Noida, Uttar Pradesh

Honors, Certifications & Research

- Certified in AI Primer** (Infosys), **Python** (IIT Madras), **Google Cloud Data Transformation**, Generative AI (LinkedIn), **Project Management** (Accenture)
- Top 100 finalist** (25,000+ participants), Build With India Hackathon; Led creativity & AI-driven features at 'ImpactLink'
- Researched AI pattern & facial recognition, quantum computing in multimodal learning
