

Result-oriented **supply chain and operations** professional with experience in an Indian–Japanese joint venture, gaining exposure to global standards and shop floor practices. Skilled in **production and capacity planning, supplier relationship management, lean supply chain, and logistics operations**. Led **digital transformation** initiatives enabling real-time tracking, streamlined reporting, and **cycle time reduction**. Adept at driving cross-functional **collaboration and stakeholder alignment** to achieve operational goals.

WORK EXPERIENCE 44 MONTHS (FULL-TIME)

SAMVARDHANA MOTHERSON ENGINEER Mar`22 - Feb`25
INTERNATIONAL LIMITED

Technical Services – Process Development	- Executed component tool development projects across automobile, electrical, medical sectors for key clients including Maruti, Toyota, Schneider & Philips, ensuring quality and performance standards - Implemented design optimizations that minimized rework by 10–20%, enhancing tool efficiency - Interpreted 3D models to sequence manufacturing operations for 70+ injection molding tools using NX10
Production Planning Development	- Led shop floor scheduling & capacity planning for 100+ machines, managing production of 30+ new injection molding tools and 60+ rework tools, optimizing resource utilization and timely project execution - Spearheaded end-to-end production planning and control for tools, international outsourcing, local vendor coordination, and real-time progress tracking to ensure on-time delivery and quality compliance - Oversaw end-to-end manufacturing, rework, assembly and first-trial execution for 72 injection molding tools for \$50 million Toyota project, ensuring adherence to delivery standards and client specifications - Developed and Evaluated monthly machine utilization, cutting, and tool manufacturing reports to track production efficiency, identify bottlenecks, and support data-driven decision-making on the shop floor
Shopfloor Transformation	- Led comprehensive project to reduce mould assembly time up to 10%, achieving faster turnaround - Strategically implemented a Kaizen-driven reorganization of new, rework, and completed tools by category, streamlining tool flow, minimizing search time, and enhancing assembly accuracy by 5–10% - Facilitated 6 manufacturing process improvement projects as part of the Chetna Quality Circle team after receiving Lean Six Sigma training; contributed to team's 3rd place win in an internal quality competition - Conducted bi-weekly reviews with maintenance team to identify equipment shortcomings and solutions; tracking resolution of machine-related issues to minimize downtime and improve operational efficiency
Digital Transformation	- Collaborated with Italian supplier FCS on CNC automation project by aligning automated fixture design with in-house manufacturing and CNC standards, enabling a 20-minute reduction in setting time per job - Projected to save 200 machine hours daily, driving cost savings of ₹1.2 lakh/day & over ₹30 lakh/month - Spearheaded the procurement and co-development of Shopplan, a real-time sales, operations & planning software for scheduling operations & match capacity needs, enhancing planning accuracy - Enabled end-to-end visibility (quotation to delivery) through real-time dashboards, reducing manual reporting time by 7 days, improving project tracking, report development & decision-making efficiency Trained 400+ employees on modules of the software for cross-functional integration & seamless adoption

OZ HOSPITALITY PVT. LTD. ASSOCIATE Jun`21 - Feb`22

RESPONSIBILITIES	Streamlined procurement by raising purchase requests, evaluating vendor quotations, and coordinating with suppliers for cost-effective, timely, and quality service delivery; managing administrative tasks
-------------------------	---

ACADEMIC QUALIFICATIONS

Degree/Exam	Board/Institute	Year
MBA Global Supply Chain Management	Indian Institute Of Management, Udaipur	2026
B.Tech Petroleum Engineering	MIT- World Peace University	2021

EXTRA-CURRICULAR ACHIEVEMENTS

ACADEMICS	- A Letter of Appreciation from Minister Human Resource Development of India for scoring 10.00 CGPA - Awarded an appreciation certificate for securing 5th Rank in the B.Tech by scoring 9.63 CGPA
------------------	---

PROJECTS AND PAPERS

Advance Analytics	Analyzed relationship between blood glucose levels and diabetes & other factors outcome, influence diabetes risk by comparing Logistic regression, KNN model, Naive bayes model	2025
--------------------------	--	------

CERTIFICATIONS

Power BI	Advance course for report & dashboard development; data analysis for better business decisions	2025
Excel skills	Completed course in Excel, learning tools & formulas to manage & analyze data effectively	2020
Python	Completed an intermediate-level python course, gaining hands-on experience in data handling	2025

POSITIONS OF RESPONSIBILITY

Member, SKEIN	Member of The Operations and Supply Chain club at IIMU, conducting workshops, publishing weekly newsletters to keep students informed about the recent developments in supply chain	Cont.
Member, Solaris	Member of event management team of annual management Fest of IIMU	Cont.
